“ *I just found out about your passing 😞😞. You were such a kind, genuine sole and I enjoyed learning from you when just started working with you at nutrition department at GSH. Then loved getting to know you and work alongside with you. You were always very kind, funny and full of wisdom, that long hectic days seemed easy. Loved running into you and getting to see you after leaving my job. You will be missed dearly 😞😞❤❤❤. My very sincere condolences to your loved ones*

“ Susie was a dear friend going back to our college days in Big Sandy, TX and the friendship continued to California and the birth of Ashley here in Ca. Though miles were between us through the years, the love has remained always. Her smile, zest for life, her laugh are what I loved and will remember about her. She cherished her family and friends. I am glad she is longer in pain. I am happy she had this year with her grandson, as that meant so much to her. You are a forever friend and will be missed. RIP my friend 🤝🙏🤝

“ A few years ago...Susie came down to visit with the family while Dad was in the Good Samaritan Hospital for weeks. Not only did she offer support she came more than once. Checking in to see how things were going....always with care and kindness!

“ *I am just heartbroken to hear of your passing. I remember all the times I was in the hospital and you would come in and we would chat about what was going on in our lives. I was kind of a regular for a year or so, so we got to catch up a lot. I will miss your smile and laugh very much. God bless your family and loved ones. I pray for their healing with this great loss.*
