“ *I got to know Ted through my employment with Dawson Public Power. In the middle eighties I was promoted to Metering Tech, about the time electronic came to use. Not only did I have to learn the old but also the new technology. My learning curve was pretty steep. I pestered Ted many times for his vast knowledge. He became a good friend and a very good meteor.*

“*"Ted" has always been a friend of mine since the early days of growing up in Aurora. Several things that come to mine are the days of our youth. Crazy things like when Ted took me to the Drive-In Theater in Grand Island and gave me my first Beer to try and drink. It took me most of the time the Movie was on to get it down but I made it. That was just one of the many times we had fun doing not to mention setting "Pins at the Bowling Alley for Tony". As I remember, one night we had a man that was throwing the Bowling Ball so hard that the Pins were flying over our heads. We mention it to our Boss Tony but it must of went in one ear and out the other cause he kept on throwing it the same way. So, Ted said I'll fix him and decided to stuff some chewing tobacco in the thumb hole of his bowling ball. Needless to say, it didn't take long for Tony to come running back and jump all over Ted for doing that but Ted stuck to his Guns and it never happen again. Another time that comes to mine is when Ted got burnt so bad and was in the hospital in Lincoln. His wife ask me to take her down to see him and I did. I couldn't believe my eyes when we reached the room that they had him in. He was wrapped in a cheese cloth from head to toe and laying face down looking at a mirror on the floor so he could visit with us. The poor man was burnt so bad that I never thought for a minute that he was going to make it home again. Little did we know that the Good Lord had other plans for him and his time wasn't up just yet. As we know now, Ted was a very strong man and he never let anything stop him from finishing what he started. I could go on and on about the many things I remember about Ted but I'm getting older as we are all and it's hard to put in writing what "Ted" meant to me as a Very Good friend. Sorry to say but I haven't had a chance to visit with Ted since the last time I saw him back in 1990 when he came to my fathers funeral in Polk, Ne. About two weeks ago I stopped at "Teds House" in Kearney and the Porch light was on but no answer to the "Door Bell or Knocking". I really kick myself for not stopping by sooner now that I won't be able to visit with him ever again. "Rest In Peace Ted" we will never forget you as one of the Good Old Aurora Boys that lived South of the Tracks.....Fred Salmon*

“ Ted and I lived across the street from other, starting in the about 1949?. In high school Ted helped me find and install a front fender for my 1949 Chevy. We both graduated with the Aurora, Neb. class of 1960. We always have been friends through the years although we rarely saw much of each others until we retired. We did a lot of meals and just talking for the last twenty years. Ted was one of the sharpest people i knew. Straight good common sense. He also had an easy laugh and would reminisce about the our past history. One night i stayed with him and we went out to breakfast and drove around Kearney. He also kept me up with people we knew who were around Kearney. When my wife passed away he talked to me before she did about things to prepare for. After she passed he called once in awhile to just chat. I already miss him and will fondly remember him through the years. Ted was a great friend.
